

**3 extra bookings in a year
pays for Green Key Global
certification. Any additional
booking is POSITIVE ROI**

Business Case for Sustainability Certification

Sustainability is no longer just an industry trend—it is a global movement influencing the choices of travelers and business partners alike. From vacationers seeking eco-conscious getaways to corporate clients aligning with ESG goals, the demand for sustainability in the hospitality industry is rising fast. For hotels, embracing sustainability offers a unique opportunity to enhance brand prestige, boost profitability, and future-proof assets.

Top 5 Reasons Your Hotel Should Obtain Sustainability Certification

1. Unique Competitive Advantage

- Around **1 in 5 hotels globally are third-party certified in sustainability**
- Sustainability certification is a powerful tool for differentiation in the luxury market. If you're not in this coveted category you're already missing out an elite audience segment

2. Elevate Guest Experience

- Sustainability-certified luxury hotels report a **15% increase in positive guest reviews** (*Expedia, 2022*)
- Guests are more satisfied when they see sustainability in action. This leads to higher satisfaction scores and repeat business

3. Boost Bookings

- **90% of travelers seek sustainable options** when planning trips & **76% of companies are adding sustainability clauses** to supplier contracts
- As luxury travelers prioritize sustainability, certified hotels can **boost booking rates by up to 20%** & with **43% of consumers willing to pay more for sustainable accommodations**, luxury hotels stand to increase revenue by embracing sustainable certification

4. Amplify Cost Savings

- Sustainable buildings are **20% more resource-efficient**
- Certified luxury hotels can significantly reduce operational costs

5. Improve Property Value

- Investors are increasingly targeting properties with strong environmental, social, and governance (ESG) performance
- Sustainability-certified luxury hotels can **command up to a 15% premium in property value** at the time of sale compared to non-certified counterparts
